---

## EDUCATION

### Bachelor of Science in Computer Science

*Expected Graduation, July 2026*

STI College San Jose Del Monte

- **Related Coursework:** Software Engineering 1 & 2, Data Structures and Algorithms, Software Quality Assurance, & Information Assurance and Security (Data Privacy).

---

## SOFTWARE PROJECTS

### EatsEasy: A Cross-Platform Food Ordering System for Food Combinations and Customization (Thesis)

Lead Developer

Flutter | Node.js | Express.js | MongoDB | Firebase

- Led development of a cross-platform food ordering system using Flutter and Node.js, improving ordering efficiency through real-time processing and scalable backend architecture.
- Designed and implemented RESTful APIs with Express.js and MongoDB, handling 100+ concurrent user requests with optimized query performance and minimal latency.
- Integrated Stripe payment gateway and Firebase notifications, enhancing transaction security and improving user engagement through real-time order updates.
- Conducted user research via interviews and surveys with food vendors and delivery drivers, ensuring system features aligned with real-world operational needs and improving usability.
- Managed Agile sprint cycles and coordinated feature releases, ensuring on-time delivery and maintaining system stability across multiple development phases.

### Renameer: Document Processing Automation System

Lead Developer

Python | Automation | File Processing | Workflow Optimization

- Designed and developed a Python-based automation system to streamline document processing workflows for scanned loan application files.
- Implemented automated PDF renaming, batch file processing, and directory organization.
- Engineered logic capable of handling large volumes of scanned documents while enforcing standardized naming conventions.
- Reduced manual document processing workload efforts by 60% and improved operational efficiency within the Records Department.
- Deployed the solution across department workstations for real-world operational use.

### Elementals: 2D Adventure Game

Lead Developer

Unity | C#

- Created a 2D top-down adventure game using Unity game engine.
- Implemented gameplay mechanics including enemy AI, elemental abilities, and physics interactions
- Implemented physics-based interactions, character animations, and sound effects for immersive gameplay.
- Optimized performance to ensure smooth gameplay without internet connectivity.

---

## TECHNICAL SKILLS

- **Languages:** Dart (Flutter), Python, JavaScript, TypeScript, Java, C#,
- **Frontend:** React, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, C# ASP.NET
- **Databases:** MongoDB, Microsoft SQL Server, Firebase, Prisma ORM, MySQL, Oracle
- **Tools:** Git, GitHub, Linux, Visual Studio, Unity
- **Cloud & Platforms:** Google Cloud Platform, Vercel
- **DevOps:** Docker, AWS
- **IT Skills:** Automation Scripting, Network Setup, System Troubleshooting, PC Assembly

---

## PROFESSIONAL EXPERIENCE

### Armed Forces and Police Savings & Loan Association Inc. (AFPSLAI)

Quezon City, PH  
Nov 2025 – April 2026

#### Document Management Specialist – Data encoder

- Digitize confidential loan application documents by converting physical records into secure digital PDF archives.
- Conduct quality assurance validation to ensure document clarity, completeness, and accurate digital storage.
- Organize and verify scanned documents to ensure proper indexing and association within the document management system.
- Developed and deployed company's Python-based automation tool that automatically renames and organizes scanned PDF documents, significantly reducing manual processing efforts by 60% through automation and system integration.
- Implemented automated batch processing logic to manage large-scale document workflows.
- Assisted in the design and setup of internal network infrastructure supporting department workstations
- Maintained strict compliance with data privacy and information security policies.

---

## CERTIFICATIONS AND ACHIEVEMENTS

- **Oracle Cloud Data Management 2022 Foundations Certified Associate** (2022)  
*Learned fundamental knowledge of data management services and describe autonomous database tools and instance creation provided by Oracle.*
- **Oracle Cloud Infrastructure 2022 Certified Foundations Associate** (2022)  
*Learned fundamental knowledge of public cloud services provided by Oracle.*
- **SQL and Relational Databases 101** (2022)  
*Completed and aced SQL and Database Management through project-based learning.*
- **Java Fundamentals – Oracle Academy** (2022)  
*Studied object-oriented programming principles and fundamental Java concepts.*
- **The Odin Project: Full-Stack JavaScript Curriculum** (2023)  
*Learned full-stack development with the MERN stack through project-based learning.*
